

## RECOMMENDED BOOK LIST FOR THE BBKA EXAMINATIONS

### Basic Certificate

*This list is intended as a guide for candidates. It is not intended that candidates should read all the books on the list and there are other books available, not listed, which are suitable reading. Only parts of each book may be relevant to a particular module or assessment. Candidates should therefore pay careful attention to the contents of the syllabus concerned. General information on sources of books is given at the end of the list.*

*\*These books are understood to be currently out of print, but tend to be readily available. You may find them in your local beekeeping association library or through the public library service. Also they may be available second hand from Chris Arden Books or Northern Bee Books (details below). The IBRA Book Shop can also supply many of these books, as well as the latest publications.*
